/our mission/

EVELUX / SECTORAL MISSION

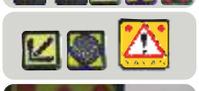

It becomes an inevitable need to provide safety and order in rapidly increasing vehicles and pedestrian traffic. Evelux which set out with this consciousness, always took inspiration from the necessity of the sector. With its principles which are "funcionality in design", "quality in production" and "trust in delivery" , Evelux has advanced by increasing its success in its leading position.

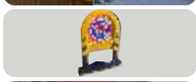

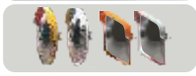

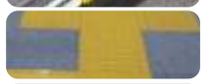

EVELUX / FUNCTIONAL ROAD SAFETY

Providing safety and order in vehicle and pedestrian traffic, to become manageable from private and public institutions to individuals. It is also important that the products and systems used for this purposes are functional as well as practical. Evelux, manufactures systems that provide functional road safety by adding practical extensions to its products in every design.

12534 FB ST

Metal Safety Barricade

	PART No.	DESCRIPTIONS
	12534 FB ST	metal safety barricade - (HxL) 110x200 cm material: metal - Ø32x2 mm round tube / weight: 15.0 kg

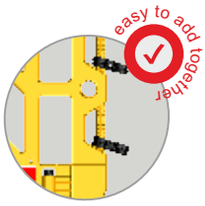

Crowd Barrier

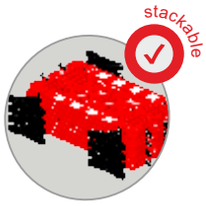

versatile application, as barrier and security of event sites, welded static painted steel constructon of Ø 32 mm round tube, hooks and connection brackets are welded to the sides for combining several elements, two feet of bent round tube provide stability of barrier, total height: 1.10 m, sturdy vertical bars of Ø 16 mm round tube provide safe barrier action

Plastic Safety Barricade

PVC - TPE Cones
Application

* with premium quality stripes; high visibility
* integral carrying handle and chain hole
* lamp&signboard&chain can be attachable by cone adaptor(126 A)
* with stackable feature; min. storage space
* broad angled base provide wind resistance and stability
* better visibility and long life color fading with UV protected bright orange color
* operating temperature range: -20°C/+60°C
* wide range of use: all warning-working zone and being managed dense traffic flow; including roads, construction areas, residential areas, parking lots and etc.

TPU Anti-Slip Stair Covering (with Butyl Tape)

Product Description: Our TPU-based outdoor anti-slip stair covering is a professional safety solution designed for harsh weather conditions such as rain, snow, and frost. Featuring a self-adhesive backing and high-traction surface, it significantly enhances pedestrian safety. It provides a reliable solution against slipping hazards and helps reduce the risk of falls and injuries.

Applications

- Apartment and residential complex outdoor staircases
- Schools, hospitals, and public buildings
- Shopping malls and business centers
- Factory and warehouse outdoor stairs
- Parking garages and emergency exit stairs
- Garden, terrace, and outdoor stairs

PL 8020

PL 8022

Installation and Application Instructions

The stair surface must be dry, clean, and free of dust. Remove the protective film from the back side of the product. Carefully place the product onto the stair tread and apply even pressure overthe entire surface to ensure proper adhesion. The surface can be used immediately after application. Full adhesion is achieved in a short time.
